# GRADUATE STUDY AT WESLEY COLLEGE

## MASTER'S DEGREE PROGRAMS

Wesley College offers graduate degrees at both the Dover campus and Wesley College New Castle (located at Corporate Commons off Read's Way, New Castle, Delaware). These include Business Administration, Education, Environmental Sciences, and Nursing. Each program has specific entrance and graduation requirements. However, common to all is the goal of assisting students who desire advanced study in current theory and practice.

Faculty at Wesley College are committed to excellence in their fields of study. Small class size gives students and faculty time for the in-depth examination and processing required for advanced-level study. Students are guided in classroom studies and in their fieldwork. This practical, small group interaction allows students to test their skills and receive feedback to evaluate their own progress and set goals for continued learning.

Wesley College faculty is dedicated to providing their graduate students with a rich and rewarding educational experience. Their principal aim is to ensure that graduates possess the knowledge and competencies required for career advancement and leadership. To this end, the

graduate curriculum in each of the four areas is designed to give students a solid foundation in the core disciplines and the expertise to perform as leaders.

## ADMISSION REQUIREMENTS

- An applicant must submit a completed application form and fee to the Office of Graduate Admissions.
- An applicant must request that official transcripts of all prior academic work be sent to the Office of Graduate Admissions
- Additionally, each graduate program has specific admission requirements as indicated below.

## ADMISSION OF INTERNATIONAL GRADUATE STUDENTS

Admitted international graduate students who require a valid F-1 student visa through a Wesley College-issued I-20 form must present the following official documents at least six months before the intended semester of enrollment.

- Completed application for admission and fees
- Official transcripts from all colleges/universities (translated into English; World Education Services [WES] transcript evaluation preferred) attended outside of the

United States

- Official transcripts from all colleges/universities attended within the United States [if applicable]
- Completed Wesley College International Student Agreement and Statement of Financial Support forms
- Official TOEFL score if English is not the applicant's first language (a minimum score of 550 on the paper-based test, 213 on the computer-based test, or 79 on the Internet-based test. This requirement is waived for those students who have earned a bachelor's degree at a college/university within the United States. It may also be waived by the Program Director for a student who has spent at least one year in an English-speaking environment

## TRANSFER CREDIT

A maximum of six (6) graduate degree credits may be transferred for courses taken at other regionally accredited institutions providing:

- The Graduate Program Director approves the request for transfer of credits
- The transfer course grade is B or better
- The transfer course credits were not used to fulfill the requirements of another degree

# ACADEMIC POLICIES AND PROCEDURES

## GRADING SCALE

The grading scale for graduate students is as follows:

A 4.00	I	Incomplete
B 3.00	W	Official
C 2.00		Withdraw
F 0.00		

## INCOMPLETE GRADES

The grade of I is given when the student has not completed course requirements because of excusable reasons. A student who receives an incomplete grade must arrange to make up all deficiencies with the faculty issuing the grade. Graduate students may retain a grade of incomplete for one calendar year. If not removed at the end of the calendar year, the grade will become an F. If a course with an incomplete grade is a prerequisite for another course, the next level course may not be taken until the grade of I is completed and replaced with a satisfactory grade. A student cannot be awarded a degree when there is an outstanding incomplete grade on the transcript, even if the incomplete is in a course not required to the degree program.

## GRADE APPEAL

A student who contends that he/she received a grade below a B because of arbitrary or unethical behavior on the part of a faculty member may appeal the grade. Before initiating such action, the student must first attempt to resolve the issue with the faculty member. If the student is not satisfied, he/she can

formally proceed by writing to the dean of the school in which the grade was assigned. The dean will meet with the faculty member and the student to examine all claims and relevant supporting materials or documents which pertain to the grade, such as the course syllabus/outline, mid-term exam, final exam, term paper, or any other outcome on which the final grade is based. If the dean supports the grade awarded, the issue is closed; the dean will officially notify the student. If no resolution can be reached, the dean will select three graduate committee faculty members to review the grievance. This review will include separate meetings of the Graduate Committee and the student, then the Graduate Committee and the faculty member involved. The decision of the Committee will be final and binding on all parties.

## ACADEMIC STANDING

Graduate faculty in their respective departments determine the value of the letter grade in their major courses. Only a grade of A, B, or C is considered to be a passing grade in a graduate course. Graduate students must maintain a minimum 3.0 cumulative grade point average [GPA] to remain in good academic standing in their program area and to meet the requirements for graduation with a master's degree. Students falling below the 3.0 GPA will be placed on academic probation and will have one term (as defined within each program) to achieve the 3.0 status.

Students who are not removed from probation after one term will be dismissed from the program.

Conduct inconsistent with the ethical and professional standards of the discipline, whether occurring before or after matriculation, is grounds for dismissal from the program. See departmental guidelines for specific information on this matter.

## CONTINUOUS ENROLLMENT

Following matriculation, students are required to be enrolled for courses each semester for continuous enrollment to be achieved. Students who do not apply for a leave of absence and have not enrolled for at least one semester can be dropped from the program. If students are dropped from the program, they may petition for readmission by filing a new application at least 30 days prior to the start of the semester in which the student expects to enroll.

A maximum of five calendar years from the date of matriculation is allowed for completion of the master's program.

## ADVISING

Each entering graduate student is assigned a faculty academic advisor. The advisor will work cooperatively with the graduate student to facilitate progression through the program to graduation. Advisors can be changed at the initiation of either the student or the faculty. The graduate

student who selects the thesis or capstone project option for graduation will select an advisor with the program director's approval.

**EXEMPTION FROM COURSE REQUIREMENTS**

A student exempt from a course requirement is not exempt from the course credit(s); the student is required to substitute another course for the exempted course to earn the requisite number of credits of his or her program.

**GRADUATION REQUIREMENTS**

Commencement exercises are held both in December and in May, and the candidates for graduation are required to attend unless excused formally.

Candidates for the December graduation must submit a signed Petition for Graduation to the Registrar's Office by November 1. Those submitting petitions for the May graduation must do so by December 1. The petition must include a catalog year. A non-refundable graduation fee must also be submitted. No

graduation petition will be accepted after November 1 for January graduation, or after March 15 for May graduation.

**ACCESS TO STUDENT RECORDS**

Wesley College guarantees both the privacy and the confidentiality of all student educational records and a student's right to access those records according to the provisions of the Family Educational Rights and Privacy Act of 1974, as amended.

The College is unable to provide parents with their student's grades unless the student has signed a waiver. The College no longer mails final grades to parents or students; grades may be accessed electronically through the student's password account.

The official custodian of student records is the Registrar. Access to student records is limited to the student, the student's current instructors and faculty advisor, the Registrar's staff, professional counseling and administrative personnel with legitimate interests, authorized

officials of government and accrediting agencies, and persons bearing a lawful judicial order or subpoena, or any party designated by written consent of the student.

A student or former student has the right of access of his or her records; however, the College can deny such access if the student has an unpaid financial obligation to the College. Requests must be made in writing to the Registrar who will comply within forty-five working days. Following review, a student may request any portion of his or her record be expunged. Failure by the College to expunge any records may be appealed to an official hearing board established for this purpose. The hearing board's decision is final. Any student who wishes the College to withhold the release of his or her name concerning normal directory information may do so by notifying the Registrar in writing. Questions regarding the official procedures and policies of the College relating to the access to and the privacy of student records should be directed to the Registrar.

# FINANCIAL AID

The College's Financial Planning Office provides information about sources of **financial aid** such as Stafford Loans and the College Work Study Program. Students should file the Free Application for Federal Student Aid (FASFA) by June 1 for the fall semester, by October 1 for the spring semester, and by March 1 for the summer sessions.

Students entitled to **Veterans benefits** should contact the Registrar's Office for information about certification eligibility.

A limited number of **Graduate Assistantships** are available for individuals admitted to graduate study. Graduate assistants receive waiver of tuition for up to seven credit hours a semester. Individuals awarded graduate assistantships work twelve hours each week during the academic year. Check with Program Director for availability.

**Government Traineeship Funds** are available to eligible students in the MS in Nursing Program. See MSN Program Director for information.

**Internships** available for Master of Arts degree candidates at Campus Community School. Contact the director of graduate program in Education for information.

# MASTER OF BUSINESS ADMINISTRATION

## DEGREE

Master of Business Administration (MBA)

## CONCENTRATIONS

Executive Leadership

Management

Environmental Sustainability

## DESCRIPTION

The Master of Business Administration (MBA) degree is designed for professionals who choose to combine academic proficiency with practical advantage in the workplace. It is a degree that aids professionals in building skills and successfully seeking employment promotion. While the MBA program emphasizes case studies and quantitative analysis in a macro context of global business and international organizations, it also includes practical work-based projects. The diversity of student backgrounds from both business and nonbusiness fields enhances the comprehensive character of class discussion. The MBA degree is offered with three concentrations.

- Executive Leadership is a concentration designed for students who have significant work experience and are fully employed.
- The Management concentration is the best option for the person who has little work experience but who wishes to pursue a career in business.
- The Environmental Sustainability concentration is designed as an interdisciplinary approach for students interested in business systems, natural systems, and sustainable development. Courses in the concentration are integrated with the core MBA courses to provide a solid conceptual and applied quantitative background for environmental managers and organizational leaders.

## ADMISSION REQUIREMENTS

The Graduate Business Committee evaluates applicants based on the following criteria:

- A cumulative grade point average of 3.00 or higher in completing a baccalaureate degree from a regionally accredited institution
- Two letters of recommendation
- A current resume
- An interview by invitation with members of the Graduate Business Committee
- It is recommended that applicants be at least twenty-five years of age.

## MBA POLICIES

The MBA programs are structured in a cohort timeframe whereby students take one course at a time. A course meets one night a week for seven or nine weeks as a part of a predetermined sequence. Continuous enrollment, as noted in the overall graduate policies, is expected.

For the MBA programs, a term is defined as two courses. A course may not be repeated in the MBA programs. No more than one class session may be missed in a course.

# EDUCATION

## DEGREES

Master of Arts in Education  
Master of Arts in Teaching with Initial Licensure  
Master of Education

## MASTER OF EDUCATION (M.A.ED OR M.ED) IN CURRICULUM AND INSTRUCTION

The Curriculum and Instruction program is designed for the practicing teacher, to encourage reflection and research on practice. The Curriculum and Instruction program's core provides the practicing teacher with the requisite knowledge and skills to become an effective teacher as described in NCATE and INTASC standards. Particular emphasis will be placed on helping practicing teachers to develop as reflective practitioners. Candidates will learn the skills of action research and be expected to demonstrate the use of action research in their classroom for the improvement of student learning. Curriculum and Instruction candidates will be assigned a program advisor when they are accepted into candidacy. With this advisor, the candidate will develop a set of goals for the program of study. Candidates will develop goals in the areas of planning, delivery, and assessment. Candidates must prepare and defend a research proposal in ED530. Research, prior to implementation and reporting of the research required for degree completion.

## CURRICULUM AND INSTRUCTION (M.Ed or M.A.Ed)

An applicant must have:

1. A minimum of one full year of teaching
2. An undergraduate GPA of 3.00
3. A professional teaching certificate
4. An on-site supervisor evaluation of professional qualities (rubric provided by program)

## The Master of Education Degree Curriculum and Instruction (M.Ed. or MA.Ed)

### Core Requirements

All advanced preparation candidates are required to take the courses in the eighteen- hour core. In addition, each candidate will work with their assigned advisor to choose a sequence of 4 additional courses (12 credit hours) to meet their

program and professional goals. These additional courses could be an existing course of study offered by the department, or a unique combination of courses designed specifically for the candidate.

The required eighteen-hour core:  
ED506A Curriculum Building  
ED521 Analysis of Teaching  
ED530 Research Methodology and Design  
ED533 Assessment  
ED534 Learning Theory  
ED536 Seminar in Instructional Models

Each Curriculum & Instruction candidate will complete a culminating product. A product proposal will be developed in consultation with the advisor and must be approved by the department. The project will be defended before three members of the department.

MA.Ed. candidates will design, implement and defend a thesis rather than a culminating project. Candidacy for the MA.Ed is on the recommendation of the graduate faculty and is based on the defense of the project/thesis proposal in ED 530 Research Methodology and Design.

Some examples of culminating projects include:

Action research in the classroom

A portfolio demonstrating progress toward professional goals

Development of an extensive curriculum project

A self-evaluation piece, similar to part of a National Board of Professional Standards Portfolio

### **MASTER OF ARTS IN TEACHING (M.A.T.)**

The Education Department offers the Master of Arts in Teaching (MAT) initial certification degree at the Dover and New Castle sites. Full time faculty from the main campus teach all courses, assuring continuity and quality of the program.

The MAT program is a licensure program for candidates who have a baccalaureate degree in a content area (history, biology, chemistry, math, political science, English, business, etc.).

Candidates earn a master degree and receive their initial teaching license through this program. MAT candidates have the following options for program completion:

1. Wesley seniors who have completed undergraduate degree requirements may enroll in classes in the spring semester of their senior year.
2. MAT candidates who wish to complete the program in three semesters may enroll in classes in the summer.
3. MAT candidates may complete the degree part time.

### **GRADUATE PROGRAM REQUIREMENTS**

#### **MASTER OF ARTS IN TEACHING (MAT) for initial licensure and certification**

To be unconditionally admitted to degree candidacy the applicant must provide to the Admission Officer:

1. Official transcripts showing completion of a bachelor's degree in an appropriate content area from an accredited university or college and an overall grade point average of 3.00

2. Official copies of passing scores (Delaware) on the PRAXIS I examination in Reading, Mathematics, and Writing.
3. Resume and statement of philosophy of teaching and learning.
4. Two letters of recommendation, one of which must be an evaluation of applicant's instructional ability and attitude toward the teaching/learning process. (Applicants who lack teaching experience [initial certification program] should ask for a recommendation from a college instructor in their major discipline or an employer familiar with their teaching potential.)

### **Core Requirements**

The MAT degree has a 21 semester hour course core and 9 student teaching hours (30 hours total)

**Offering vary based on analysis of candidate course needs.**

Upon satisfactory completion of the program and upon submitting evidence of having achieved a level of performance satisfactory to the Delaware State Department of Education, graduates receive the M.A.T. and initial certification in secondary education for grades 7-12.

Because of the brevity of the MAT program, a grade of Incomplete will not be given in any of the courses. MAT degree candidates are expected to

complete the work for each course in the semester in which it is taken for credit.

### **MAT New Castle Policies**

Application for admission must be submitted to the New Castle site. The chair of the graduate education programs on the main campus reviews all applications and makes admission decisions. MAT candidates enrolled in the New Castle program are subject to all policies for admission and continued enrollment as those at the main campus.

1. MAT candidates are admitted only in the fall semester at the New Castle site.
2. The course format is compressed into 7 weeks (with the exception of the student teaching semester)
3. Because of the compressed time frame for course work, one absence from scheduled class meetings will result in the candidate being withdrawn from the course.
4. MAT candidates are expected to register for a Tk20 account in their first course. Contact the Department's database administrator at [brannema@wesley.edu](mailto:brannema@wesley.edu) for instructions.

### **MAT Course Rotation (New Castle)**

### **Graduate Course of Study Certificates**

As part of the recent reorganization of professional development under the "No Child Left Behind" legislation, the state of Delaware Department of Education now requires practicing teachers to participate in extended educational experiences. Once certified teachers have received a master's degree, colleges can meet their needs with state-approved "graduate courses of study." These are groups of courses of 6-18 credits with a common focus. The education department has four graduate courses of study:

Graduate Course of Study in Literacy  
Graduate Course of Study in Action Research  
Graduate Course of Study in Standards-Based Teaching

Graduate Course of Study for Reading Specialist Certification

### **Graduate Course of Study in Literacy 16 credit Hours**

ED505 Developing Strategic Readers  
ED509 Teaching the Struggling Reader or Writer  
ED514 Language and Linguistics  
ED515 Methods in Process Writing  
ED523 Literature Across The Curriculum  
ED527 Portfolio Development

### **Graduate Course of Study in Action Research 12-15 credit hours**

ED530 Analysis of Research Methodology and Design  
ED540,550,560,570 Topics In English Language Arts, Mathematics, Science, or Social Studies  
ED535 Action Research  
ED600 Thesis Credit

Upon completion of the action research project, teachers will write a professional quality article for submission for publications. The thesis credit class will function as a writing workshop focusing on collaboration, peer revising and editing. A teacher may elect to do 3 or 6 hours of thesis credit, depending on the complexity of the research design.

### **Graduate Courses of Study for Standards-Based Teaching**

# ENVIRONMENTAL SCIENCE

## DEGREE

Master of Science in Environmental Science

## DESCRIPTION

Wesley College's M.S. Environmental Science program is designed for the working environmental professional. Course offerings are designed for individuals seeking an entry-level environmental management position or a broad-based environmental science graduate degree. The M.S. program emphasizes a systems and interdisciplinary science approach to environmental problem-solving. The courses are applications- and projects-based. Examples of projects include hazards assessments using geographic information systems (GIS) techniques, modeling pesticide and erosion dynamics, impact of urban and agricultural land use on water quality, evaluating brownfields for development, and predicting coastal erosion. Students are provided an equal balance between theory and hands-on applications. Research methods and techniques, environmental instrumentation, and computer applications are an integral part of the graduate program.

## SPECIAL FEATURES

- Completion in two years
- All courses are taught in the evening
- Small class size
- Non-thesis and thesis option
- Blends the natural and physical sciences with policy
- Acquire computer application skills in modeling and GIS

## Graduate Course of Study for Educators

The Course of Study in Interdisciplinary Environmental Science is for educators who have completed a master's degree and who desire to work toward a "Plus 15" school district salary increment. All course work in the 15-credit-hour Course of Study can be applied toward an MS degree in Environmental Science at Wesley College.

# NURSING

## ACCREDITATION

The Wesley College Master of Science in Nursing program is accredited by the National League for Nursing Accrediting Commission (NLNAC) 3343 Peachtree Road NE, Suite 850 Atlanta, Georgia 30326. Phone: 1.800.669.4656 ext. 153.

## MAJORS

Master of Science in Nursing (M.S.N.)  
Post Master's Certificate in Nursing Education  
Both Nursing Majors are offered at Dover and New Castle Campuses

## CONCENTRATIONS

Health Promotion and Wellness  
(Clinical Nurse Specialist)

## DESCRIPTION

The Master of Science in Nursing is designed for the Registered Nurse with or without a Bachelor's degree. This Clinical Nurse Specialist curriculum combines elements of the BSN for RN with Master's level nursing studies, streamlining progression toward completion of the MSN without compromising educational integrity. Developed with an understanding of the individual's unique needs and interests and of the adult learners attributes of self-accountability and high motivation, the program provides maximum flexibility and individualization of learner goals without repetition of current knowledge and skills. The program prepares the graduate for advanced practice as a clinical nurse specialist in a wide variety of health care settings to promote and maintain high level wellness and to improve health care delivery in a rapidly changing society.

## SPECIAL FEATURES

- Career mobility model that allows progression without repetition
- Evening classes that meet once weekly; same day the entire program
- Full time doctoral prepared faculty teaching in small seminars
- Emphasis on expert roles in practice, research and education
- Thesis or non-thesis option

## REQUIREMENTS

**POST MASTER'S CERTIFICATE IN NURSING EDUCATION**

The Post Master's Certificate in Nursing education will allow those nurses prepared for clinical roles at the advanced practice level to gain the necessary knowledge for the role of nurse educator in a variety of settings. It can be completed while the advanced practice nurse is employed full time as it is offered in a convenient weekend format that does not disrupt employment and earning capacity while preparing for a new role. Each course consists of two weekends of intense study with the exception of the teaching practicum. The curriculum consists of 15 credits including the teaching practicum.

**Course of study is as follows:**

NR636: Evaluation and Classroom Methods in Nursing Education  
NR637: Theory and Process in Nursing Education  
NR638: Nursing Education Practicum  
NR639: Curriculum Development & Implementation

# GRADUATE COURSE DESCRIPTIONS

## BUSINESS ADMINISTRATION

### **BA501 Marketing Theory and Buyer Behavior**

Studies marketing topics such as strategic market planning, time-based competition, customer satisfaction, innovation, creativity, and research. Emphasizes competitive marketing and contemporary buying behavior. **3 credits**

### **BA502 Business Statistics**

Includes descriptive statistics, sampling procedures, hypotheses testing, statistical quality control charting, confidence limits, analysis of variance, chi-square tests, simple, and multiple regressions are topics included. Concepts are related to business decisions and form the basis for data analysis and model building encountered in other MBA courses. **3 credits**

### **BA503 Advanced Financial Management**

Examines financial planning and control for the financial and nonfinancial executive, including decisions of investment, growth, and expansion strategies, dividend policy and capital structure. Analyzes principles leads to decisions about current assets, fixed assets, debt, equity, and capital assets. Emphasizes decision-making based on quantitative analysis. Prerequisites: BA502, BA506 **3 credits**

### **BA504 Social Forces in Business**

Studies the ethical, moral, and legal responsibilities of the manager in the business world. National, state and local laws and customs stressed as they relate to the business

enterprise and the rights of workers. **3 credits**

### **BA505 Managerial Economics**

Integrates principles and ideas from various fields of economics for management decision-making and policy formation within the firm. Includes demand and cost analysis, pricing policies, capital budgeting, and other topics of economic analysis. Prerequisites: BA502 **3 credits**

### **BA506 Advanced Managerial Accounting**

Emphasizes various cost concepts, cost behavior, cost accounting systems, and budgeting. Effects of costs and how they are reported in management control systems are studied as well as the interpretation and use of cost data in decision-making. Prerequisite: BA502 **3 credits**

### **BA507 Operations Management**

Studies concepts relating to the operations function in both manufacturing and service organizations as they relate to planning, organizing, and controlling resources. Included is a study of efficient and effective production of goods and provision of services to meet the goals of the organization. Case analysis employed to relate theory to practice. Prerequisites: BA505, BA506 **3 credits**

### **BA508 Organizational Development**

Covers topics of learning, perception, job attitude, work motivation, leadership, decision-making and group dynamics. Course seeks to enhance student knowledge concerning the behavior of individuals and groups in an organization. Application of organizational

behavior theory to managerial problems is included. **3 credits**

### **BA509 Management Support Systems**

Focuses on control systems that help a firm achieve predetermined goals. A control system involves a set of rules that process information to result in a choice among alternatives: a decision. Communications, also a part of the system, is the manner by which the information is routed to all of the processing and decision entities. This course considers the formal and informal aspects of management control. **3 credits**

### **BA510 Small Business Entrepreneurship**

Studies small companies and the challenges that are commonly encountered. Students assigned clients for whom they will identify problem areas and recommend changes to improve operations. Consulting reports will be presented to the class. **3 credits**

### **BA511 Quality Planning and Control**

Studies the total quality organization embracing the total ability to see the organization as a whole and to understand quality aspects of integrated strategic planning, empowered how and why the functions of a business are interdependent workers, internal and external quality assessments and must be carefully managed for the organization to benchmarking, supplier/vendor agreements and customer perform well. Students are encouraged to relate the opera-focus. Quality Functional Deployment (QFD) and Continuation of their own firm to the course content. Quality Improvement (CQI), supportive

of Total Quality Management are included. **3 credits**

**BA512 Legal Options in Business**

Studies law governing commercial transactions, relationships of parties-of-interest and organizations involved. Emphasizes applications and options in decision-making. **3 credits**

**BA513 International Management**

Examines international business, integrating theory, policy, and application in a global setting. Topics include theories of international trade, types of investment, exchange rates, international finance, government intervention in trade and the role of global institutions in promoting world trade and trade blocs. **3 credits**

**BA514 Contemporary Issues Seminar**

Studies current issues of interest that will vary from time to time. Although topics generally will be macro in scope, events may suggest appropriate micro topics as well. **3 credits**

**BA515 Strategic Planning and Analysis**

Serves as a capstone course in business policy that stresses a synthesis of the functional business fields. Course develops student ability to see the organization as a whole and to understand how and why the functions of a business are interdependent and must be carefully managed for the organization to perform well. Students are encouraged to relate the operation of their own firm to the course content. **3 credits**

**BA516 Executive Leadership**

Studies leadership theories and models that highlight successful characteristics of leadership. Analysis and evaluation of models may enable the student to improve his or her own approach in leadership. **3 credits**

**BA 518: Economics of the Environment**

Introduces students to the integral economic aspects of environmental issues. Includes economic analysis applied to resource allocation, international environmental issues, and pollution issues as related to air, water, and solid and hazardous wastes. Different government-based and market-based policies in regards to environmental issues are examined. Consequences on the environment and related aspects of these policies are discussed. **3 credits**

**BA 519 Quantitative Methods for Sustainability**

Focuses on research methods and quantitative skills necessary to support sustainable business communities. Skills necessary to conduct graduate level research, to gather information relevant to the problems of sustainability, and to develop decision-based models for evaluating selected problems are pursued. Specific topics include research methods, data collection, forecasting methods, decision-making techniques, and inferential statistics. **3 credits**

**BA 520 Sustainable Business Communities**

Serves as a capstone course for the concentration in environmental sustainability. Three integrated sections, each with its own objectives but with interrelated areas and common/unified threads include the overall understandings of the science elements of nature as they pertain to business operations, relationships between sustainability of the natural environment and business operations, and social arrangements/systems that foster sustainability in the business context. **3 credits**

**BA604 Cooperative Placement in Business**

Work experience in a business setting in which graduate learning themes may be applied. Placement is appropriate only for the student who is not employed full-time. Prerequisite: approval of Program Director. **3 credits**

**BA605 Research Project**

Integrates student's education with practical work experience. Students are encouraged to research matters relating to their individual business or employment areas to bring together classroom theory and practical application in the workplace. **3 credits**

**EDUCATION**

**ED505 Developing Strategic Readers**

Focuses on teaching strategies to enhance comprehension and critical use of text across all areas of the curriculum. Participants will learn to analyze students' reading and responses to reading and base instruction on the results. Students will participate and learn to use reading workshop methodology. **3 credits**

**ED506A Curriculum Building**

Focuses on skills and knowledge for curriculum building, including analyzing standards, writing content summaries, developing learner outcomes. Candidates in all content areas will examine language arts standards for skills that cut across the curriculum. **3 credits**

**ED509 Teaching the Struggling Reader and Writer**

Investigates problems children and adolescents encounter in learning to read and write. The course examines current teaching/learning theories, experiments with techniques for observing and understanding children's literacy behaviors, and applies various models for supporting children's learning. **3 credits**

**ED512 Advanced Diagnosis and Remediation of Literacy Problems**

Builds on theories and methods introduced in ED509. Studies the work of major researchers and theorists in the field and develops interventions for low-progress readers in clinical setting. Prerequisite: ED509. **3 credits**

**ED513 Practicum in Literacy Teaching**

Focuses on training others—parents, teachers, and tutors—in ways to help children develop literacy skills and knowledge. Provides services and supervise others in a literacy clinic. Prerequisites: ED510, ED512. **3 credits**

**ED514 Language and Linguistics**

Provides a comprehensive study of theories and research on language development in children. Emphasize the relationship between language

development and expectations of the school environment (psychosociolinguistics, discourse analysis, and culture). **3 credits**

**ED515 Methods in Process Writing**

Provides opportunities for teachers to explore their own writing process as they keep a writing journal and share pieces with their peers. The course examines ways to involve children and adolescents in purposeful writing and in learning to revise and edit their writing for a variety of audiences. **3 credits**

**ED516 The Diverse School**

Explores contemporary pluralism within U.S. educational environments. This course explores student diversity – characterized by ethnicity, language, cultural background, gender, socio-economic background, sexual orientation, and exceptionality – in relation to multiple dimensions of school life: differentiated instructional strategies, the formal curriculum, the informal curriculum, teacher and student relationships, connections with family and community, and teachers' professional development. **3 credits**

**ED517 Issues in Education**

Explores contemporary issues and practices in U.S. education. This course begins with an examination of the major philosophical perspectives to education and their application to educational practice. Readings and discussions will focus on current practices and issues, models of reform, the impact of reform strategies, leadership, and change. Students will examine the works of researchers, policymakers,

and practitioners at all levels of the educational system.

**3 credits**

**ED518 Content Preparation Practicum**

In this independent study course, students will work with a content expert to increase knowledge in an area of mutual interest, and with an educational expert to develop a teaching unit based on this content. The unit could be taught during student teaching in the MAT program plus one of the following: ED540 Topics in Science Education; ED550 Topics in Mathematics Education; ED560 Topics in English/ Language Arts; ED570 Topics in Social Studies (3 credits) **1 credit**

**ED519 Literacy Across the Content Areas**

Explores four areas related to literacy across the curriculum in secondary classrooms — comprehension strategies, writing process, literature, and recognizing and supporting the struggling reader. Candidates will participate in reading and writing workshops as they read and reflect on a variety of professional and children's literature. **3 credits**

**ED520 Middle School Advisory Programs**

Focuses on the in-depth analysis of effective middle school advisor/advisee programs. Examines current mentoring, advising, and counseling techniques and programs used to meet the social, emotional, intellectual, and physical development of 10- to 14-year-old diverse middle school populations. **3 credits**

**ED521 Analysis of Teaching**

Explores the application of knowledge and skills in the K12 classroom. Special emphasis on understanding the importance of providing learning environments in which student can create meaning. Examines and practices models of effective teaching. **3 credits**

**ED522 The Reflective Practitioner**

Capstone course that represents the final phase of teacher training, and serves to assess both professional readiness and the effectiveness of the Wesley College MAT program. Students develop and conduct an action research project in their student teaching classrooms. (MAT only, co-requisite with student teaching ED526) **3 credits**

**ED523 Literature Across the Curriculum**

Provides an in-depth analysis of ways that books, representing a variety of genres, may be used with children and adolescents, not only to enhance course content in all disciplines, but also to support thematic approaches for integrated study. **3 credits**

**ED524 Seminar on Exceptional Children**

Examines the characteristics and instructional needs of exceptional learners and explores research-based techniques for adapting classroom instruction to accommodate the integration of exceptional children in regular classrooms. **3 credits**

**ED526 Student Teaching Middle and Secondary Education (MAT only)**

Provides fourteen weeks of full-time experience with and practice in a middle or secondary classroom.

Prerequisites: admission to the initial certification graduate program and permission of the Director of Graduate Studies in Education. Co-requisite: ED5XX The Reflective Practitioner.

**9 credits**

**ED527 Portfolio Development**

Provides support for the creation of a portfolio to demonstrate progress in meeting goals of the course of study. **1 credit**

**ED530 Analysis of Research Methodologies and Design**

C & I candidates only. Examines appropriate design of original educational research, including quantitative and qualitative practices. Through analysis of classroom field notes, candidates will develop topics of interest and generate a research proposal. **3 credits**

**ED533 Assessment**

Provides an extensive examination of assessment models and techniques and their theoretical origins. Examines in depth recent assessment practices such as the use of rubrics for performance assessment and portfolio assessment. **3 credits**

**ED534 Learning Theory**

Examines classical and contemporary theories of learning, including those of Skinner, Piaget, Vygotsky, and Dewey. In addition, students will study human development with an emphasis on cognitive and social development in adolescents and pre-adolescents as a foundation for effective teaching and classroom management. **3 credits**

**ED535 Action Research**

With the support of professors and colleagues in this course, teachers will conduct an action research project in their own classrooms – collecting and analyzing data, presenting results and implications. (prerequisite ED530) **3 credits**

**ED536 Seminar in Instructional Models**

Examines skills related to effective instructional delivery. Students will examine various teaching models, including four generic instructional models and workshop approach for reading and writing. Various kinds of authentic assessment of student learning will be introduced, tried out, and evaluated in the classroom. Classroom management strategies and effective teaching strategies will be discussed and evaluated. (Field experience is required) **3 credits**

**ED540 Topics in Science Education**

Focuses on current issues in K-12 science education. Examines primary research on science learning and teaching and current literature dealing with national reform efforts in science education. Culminating activity will be a research paper that synthesizes research in an identified area of current concern in the science education literature. **3 credits**

### **ED550 Topics in Mathematics Education**

Focuses on current issues in K-12 mathematics education. Examines primary research on mathematics learning and teaching and current literature dealing with national reform efforts in mathematics education. Culminating activity will be a research project that synthesizes research in an identified area of current concern in the mathematics education literature. **3 credits**

### **ED560 Topics in English/Language Arts Education**

Develops an understanding of the developmental process of language, and social and cultural language differences. Studies current issues in research and practice, special emphasis will be placed upon an interdisciplinary approach to teaching the integrated language arts. **3 credits**

### **ED560G Motivation to Learn**

Examines the nature of motivation, both extrinsic and intrinsic, and its effect on the learning process. Student engagement, self-efficacy, interest, competition, reward and punishment, and the affective domain are some of the concepts discussed in the course. Cognitive and sociocultural theories provide the context for the study of motivation. The relationship of an integrated curriculum and motivation to learn is emphasized

### **ED570 Topics in Social Studies Education**

Focuses on current issues in social studies education. Examines primary research on social studies learning and teaching, and current literature dealing with national reform efforts in social studies education. Culminating activity will be a research project that synthesizes research in an

identified area of current concern in the social studies literature. **3 credits**

### **ED600 Thesis Advisement**

Individual advisement master's thesis. Permission of Director of Graduate studies in Education required. **1-9 credits**

## **ENVIRONMENTAL STUDIES**

### **ES500 Air Resources**

Physical, chemical, and technical aspects of local, regional, and global air pollution. Topics include the air pollution meteorology, climate change, photochemical smog, carbon cycle, ground level and stratospheric ozone, aerosols, and environmental legislation. Prerequisites: Graduate standing. **3 credits**

### **ES 504 Sustainability Science**

Provides a foundation in the human and physical processes that shape urban and natural environments. Emphasizes the integration of nature of sustainable water, energy, resource use, and land management. Also includes five fundamental goals of sustainable development: 1) conservation of resources, 2) preservation of environmental quality, 3) sustainable development, 4) political participation, and 5) social equality. Discussion topics include the population growth, climate change, carbon/nutrient cycles; solid-waste pollution; urban-air pollution; and water management strategies. **3 credits**

### **ES505 Environmental Bioremediation**

Microbiological treatment of environments contaminated with organic and inorganic pollutants. Reviews a variety of innovative technology protocols through individual student assignments and group projects utilizing recent case histories, transfer technology, and current technical literature. **3 credits**

### **ES506 Research Methods**

An introduction to quantitative and qualitative research methods. Discussion topics include formulating research questions, sampling, measurement, bias, research validity, research design, and data analysis. Student prepares a research proposal. Prerequisites: Graduate standing. (Offered Fall Semester.) **2 credits**

### **ES507 Experimental and Project Research**

Continuation of ES506. Student is expected to conduct guided research and write their results in a format suggested by editors of leading biological and environmental sciences journals. (Offered Spring Semester.) **1 credit**

### **ES508 Environmental Law**

Cross-referenced with PL 408. Studies the environmental law process, including the role of Congress, administrative agencies, and the court in creating, implementing, and interpreting laws and regulations. Studies in several major environmental laws and programs relating to air and water pollution, solid waste, hazardous waste, toxic waste and the Coastal Zone. Case studies and projects are emphasized. There are additional requirements for

graduate student papers and projects. (offered Spring Semester.) Prerequisites: Graduate standing in Environmental Policy. **3 credits**

### **ES510 Environmental Ethics**

Interdisciplinary, multicultural, and transformative aspects of the topic of environmental ethics. Individual student assignments and group projects will study the richness and diversity of human responses to the concerns raised by the various facets of the environmental crisis. **3 credits**

### **ES511 Hazardous Materials Management**

State of the art and experimental methods in the appropriate handling, treatment, and disposal of materials classified as hazardous. Topics will include hazardous materials generation, transportation, physical and chemical treatment processes, storage, and disposable techniques. Preliminary Assessment (P.A.) Formats will be studied and sample P.A. sites will be selected from the current Emergency Remedial Response Information System (E.R.R.I.S.) list. Specific guest lectures will be used during the course. Selected field activities will include instruction in the use of protective clothing and respiratory protection and the use of specific environmental monitoring equipment. Prerequisite: Graduate standing. **3 credits**

### **ES512 Hazard Assessment and Management**

Theory and methods in hazard assessment and management. Site characterization; environmental pathways; contaminant release, transfer, and transport; exposed populations; and risk

characterization. A systems approach to environmental problem solving will be emphasized. Structured as an applications-and case study-based course. Prerequisites: Graduate standing, MA201, and ES520. **3 credits**

### **ES515 Current Topics in Environmental Sciences: Aquatic Resources**

Chemical contamination of surface water and subsequent impact on aquatic habitat. Sustainable management options and techniques to detect and control nonpoint source pollution will be discussed. **3 credits**

### **ES520 Environmental Calculations and Treatment Methods**

Advanced treatment technologies available for the remediation of impacted environments utilizing mathematical modeling and material balances. Special emphasis placed on the protocols required for the treatment of impacted air quality and the utilization of remediation methods for a variety of brownfield sites. Individual assignments and group projects will access current and projected procedures, literature, and resources. **3 credits**

### **ES522 Spatial Analysis Using Geographical Information Systems and Image Analysis**

GIS and remote sensing course that provides an equal balance between theory and hands-on applications. A raster-based GIS will be used as a vehicle for spatial and image analysis applications in the environmental and the biological sciences. Discusses data

structures, database query, distance and context operators, map algebra, DEM creation, principles of remote sensing and spectral response patterns, satellite image enhancement, and supervised and unsupervised image classification theory and applications. Prerequisites: Graduate standing. **3 credits**

### **ES525 Environmental Project Management and Control**

Planning, organizing, and implementing environmental management projects. Topics include strategic planning, forecasting, operations management, and decision strategy analysis. **3 credits**

### **ES530 Current Topics in Environmental Sciences: Air Resources**

Reviews the status of the primary and associated causative agents and actions leading to the current environmental conditions that affect air resources. Individual assignments and group projects will reflect student's interest and expertise in the identification, analysis, and subsequent recommendations for air quality improvement. **3 credits**

### **ES535 Environmental Regulatory Permitting and Risk Assessment**

Analyzes the major contemporary and proposed legislative and regulatory programs that affect both the private and public sectors of the environmental profession. Current, strategic risk assessment mechanisms that evaluate, manage, and minimize risk will be incorporated into individual assignments and group projects via the use of scientific and economic information for the formulation

of public and private sector policies with specific emphasis on indoor air quality and ambient atmospheric masses. **3 credits**

**ES545 Current Topics in Environmental Sciences: Soils and Water Resources**

Analyzes the status of environmental impact interactions on the soil communities, surface water, and ground water. Individual assignments and group projects will reflect student's interests and expertise in the identification, analysis, and subsequent recommendations for soil improvement, land use, and water quality remediation. **3 credits**

**ES547 Environmental Policy**

Economic, ethical, and political aspects of analyzing conflicts surrounding transportation, endangered species, land use, air and water pollution, and energy policy. Explores evaluation of alternatives for solution of complex environmental problems. Prerequisite: Graduate standing. **3 credits**

**ES555 Environmental Instrumentation**

Instrumentation techniques currently used to assess samples from atmospheric, hydrologic, geologic, and biospheric sources. Quality assurance and quality control procedures will be incorporated into the analytical procedures that will be integrated into individual student assignments and group projects. **3 credits**

**ES556 Limnology**

Cross-referenced with BI355. Examines the ecology of aquatic habitats in which the biota of lakes, marshes, and estuarine

systems are studied utilizing field surveys and individual projects. Prerequisite: Graduate standing. **3 credits**

**ES575 Special Topics in Environmental Sciences**

Specialized topics in the environmental sciences not generally included in course offerings. A maximum of six semester hours is allowed for program credit. Prerequisite: Graduate committee approval. **3 credits**

**ES600 Environmental Sciences Integrated Thesis Project**

Thesis project selection, experimental design, collection, and analysis of data, and subsequent presentation. **3 credits**

**NURSING**

**NR504 Population Focused Care**

This clinical course is designed to provide students with the opportunity to apply the nursing process to the community as the health client. Students will use principles of epidemiology to investigate a community health problem. The health needs of populations at risk within the community are identified and plans are formulated to meet those needs. Practica utilize a variety of community settings. (Spring Semester) **5 credits**

**NR505 Seminar in Professional Nursing**

Focuses on issues and trends pertinent to professional nursing practice and provides an opportunity for student to design and lead a seminar on the topic of their choice. Current licensure as an RN. (Spring Semester) **3 credits**

**NR510 Health Promotion Across the Lifespan**

This course describes the evolving profession of nursing and the changing health care system including future challenges and policy initiatives for health promotion. Foundations of, assessment, intervention, application and evaluation of health promotion are emphasized. Functional assessment patterns serve as the organizing framework for health promotion throughout the lifespan. BSN or completion of bridge required. (Summer Session) **3 credits**

**NR512 Leadership Role in Advanced Practice Nursing**

Examines the leadership strategies and nursing roles for influencing practice decisions within the health care system. Provides the framework for the implementation if the advanced practice role of the clinical nurse specialist as expert clinician, educator, consultant, and researcher. BSN or completion of bridge required. (Fall Semester) **3 credits**

**NR515 Graduate Research I**

Enables the student to be a critical consumer of research, to understand the theoretical underpinnings of qualitative and quantitative studies and have a beginning understanding of research design, literature review, methodologies and procedures for analysis, ethical considerations and funding resources. Critiques research; designs and implements one qualitative and one quantitative project in a group. BSN or completion of bridge required. (Spring Semester) **3 credits**

**NR516 Process of Curriculum Building in Nursing**

Provides the opportunity to build upon fundamental nursing knowledge related to teaching and learning. Engages in the process of curriculum formation, revision, and evaluation for nursing, patient and community education settings. BSN or completion of bridge required. (Fall or Spring Semester)

**3 credits**

**NR517 Intro to Public Health Administration**

Introduces organization and management theory as they relate to health service institutions and the role of the administrator. Provides an overview of the way public and personal health services are structured, managed, regulated, financed, and delivered at the federal, state and local levels. BSN or completion of bridge required. (Fall or Spring Semester)

**3 credits**

**NR518 Nursing Case Management and the Advanced Practice Role**

Provides clinical nurse specialist student with an introduction to the case management process and the role of the case manager. Case management design and implementation is explored and tools for analyzing client outcomes will be used to integrate theory and application in the managed health care system. **3 credits**

**NR521 Theory & Evidence Based Practice**

Examines theories of nursing and other theories relevant to nursing practice. The relationship among theory, research and evidence based practice is explored and applied to real life practice situations. The role of the nurse in support

of this theory, research and evidence based practice is addressed through a theoretical paper, research critiques and a poster presentation (Fall semester) **3 credits**

**NR522 Health Policy & Nursing**

This course examines health care policy and politics as it relates to nursing practice. Historical, ethical, political and economic factors are discussed and the nurse's responsibility and role in health care policy is explored. A practicum facilitates application of principles addressed in the course. (Fall semester) **4 credits**

**NR601 Advanced Pharmacology**

This course is designed to expand the advanced practice student's knowledge of pharmacotherapeutics, which includes the cellular response level, for the management of health and illness of individuals in the acute care and primary care setting. Broad categories of pharmacological agents are examined. Skills to assess, diagnose, and manage a client's common health problems in a safe, high quality, cost-effective manner are emphasized. (Summer semester) **3 credits**

**NR602 Advanced Pathophysiology**

This course emphasizes the pathophysiological concepts of disease process in the adult client and assists the advanced practice nurse in the process of physical assessment and determination of nursing interventions. This course will be offered as an online course (Fall semester) **3 credits**

**NR603 Advanced Physical Assessment**

This seven week course focuses

on the development and use of advanced nursing practice skills through comprehensive health history interviewing, physical assessment skills and the identification and discussion of selective laboratory tests to determine the client's health status. Skills and techniques will be practiced in the laboratory and applied concurrently to the clinical component of all nursing practica. (Fall semester)

**3 credits**

**NR610 Advanced Nursing Practice I Health Promotion and the Community**

This course provides the clinical nurse specialist student with the opportunity to use one theory-based approach to address a geo-political community. Student describes the community and its sub-groups and determines the current and potential health level of the community and at least one subgroup. Student identifies facilitators and barriers to health promotion and disease prevention for the community as a whole, including community resources, programs, and sources of programs. Key concepts addressed including risk, risk assessment, levels of prevention, health promotion, motivation, and broad based strategies for behavior change at the community level.

Prerequisite: B.S.N. or completion of Nursing Bridge. Includes student selected clinical practicum. (Spring Semester)

**4 credits**

**NR612 Advanced Nursing Practice II Small Groups, Theory and Practice**

This second advanced practice nursing course provides the clinical nurse specialist student the opportunity to incorporate practice, education and into

health promotion, wellness and prevention of illness strategies while providing care to a small group as client. The small group is selected from the community assessed in NR610 (Health Promotion and the Community) and utilizes community findings to identify potential resources and small group supports. Critical thinking, knowledge and assessment of group dynamics affecting the health status of the group are emphasized. The clinical component provides the clinical specialist student with the opportunity to contract with and follow a small group with specific health care needs. (Fall Semester) **4 credits**

#### **NR615 Graduate Nursing Research II**

This research course is designed to provide supervision to the graduate nursing student in the conduct of epidemiologic field work and grantsmanship related to a student selected population. Students will research the incidence, prevalence and determinants of disease and/or injury in a selected population. Class discussions focus on procedures for epidemiologic field investigation, data collection and grant writing. or health restoration project. (Fall Semester) **3 credits**

#### **NR616 Advanced Nursing Practice III Health Promotion & Special Populations**

This is the third clinical course designed to provide an in-depth experience in community based, population focused advanced practice nursing. The student will develop, implement and evaluate a program directed toward a student selected population. The course provides the student with an opportunity to further develop the role of

the clinical nurse specialist as he/she participates in collaborative efforts with health providers involved in programs which emphasize health promotion and illness/disease prevention. Students will participate in advocacy, community organization and community capacity building. (Spring Semester) **4 credits**

#### **NR620 Thesis/Project Advisement**

Provides ongoing individualized faculty guidance as the thesis/project is followed through to completion. Prerequisite: NR615 (Offered each Semester) **3-6 credits**

#### **NR630 Ethnographic Field Techniques in Health Care Settings**

Provides a theory base and necessary skills for the logical interfacing of multiple methods used to answer research questions. Addresses triangulation and the appropriate blends of qualitative/quantitative approaches. Utilizes four self-selected field techniques related to their clinical area of interest. Possible techniques include: focused interview, event analysis, ritual report, photographic technique (still or video), oral history, storytelling, round-of-life, cultural inventory or mini-ethnography. Data analysis and presentation is addressed. **3 credits**
