

iOS: WPA2 Secure Wireless Setup

1. Select **Settings** icon from the main screen

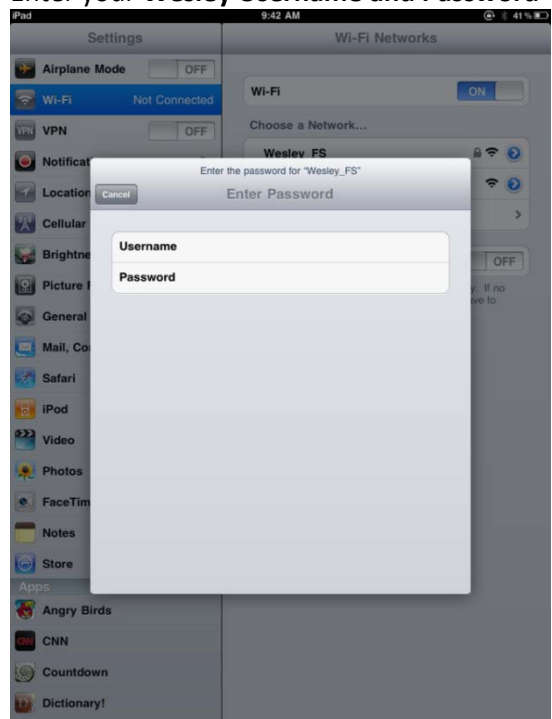

3. Select **Wesley_FS**

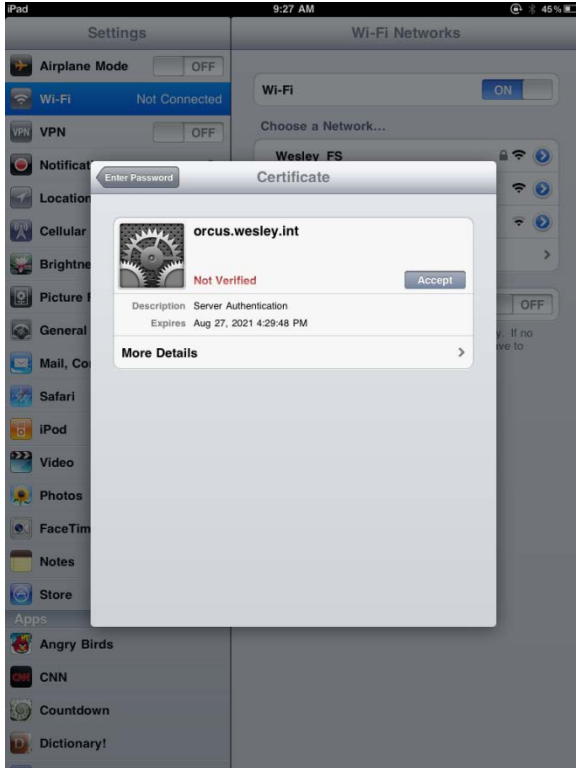

2. Select **Wi-Fi** and slide to **On**

4. Enter your **Wesley Username and Password**

5. Click **Join** for iPad or **OK** for iPhone/iPod Touch.
6. The verify certificate window displays: Click **Accept**.

6. You're Connected!

Note: Periodically, you may receive a prompt to re-enter your user name and password.

Troubleshooting: If you receive the “Unable to join network” error, go back into your Settings and toggle the Wi-Fi switch off and then on again.
