At TIAA, our focus is on you and your financial future

We started out offering retirement services to teachers nearly 100 years ago. Today, we're a full-service financial services organization specializing in the distinctive needs of people like you who work in the academic, research, medical, governmental and cultural fields.

With our strong nonprofit heritage, we are committed to providing you:

- Personalized retirement plan advice and guidance from highly trained consultants
- A variety of investment products to help you create a diversified portfolio
- Low fees* so you can potentially get more for your money

And, we look at your financial picture—where you are today, what's important to you and where you want to be at retirement—to help you develop a course of action to reach your goals.

Time can have a significant impact on retirement savings.

The earlier contributions start, the longer time and money can work through the power of compounding. There is potential for growth on the funds contributed and for growth on their earnings.

Take the first step towards retirement. Enroll today.

Your employer's retirement plan makes it easier than ever for you to start preparing for your retirement. Whether it's years down the road or just around the corner, the time to start saving for retirement is now.

Why it's important to act now

- People are living longer these days. That's a good thing, but it means you'll probably need more money to cover daily expenses and healthcare when you retire.
- On average, Social Security will provide only 40% of the money you will need during your retirement years.¹
- Time is on your side: The earlier you act, the more it can potentially do for you.

Assumes a 6% annual return, which is purely hypothetical and not intended to predict or project the actual performance of any account. Actual returns will vary. Does not reflect expenses that would result in lower returns. Assumes no withdrawals during the period indicated. All figures are rounded to the nearest thousand.
