Woods Hole Partnership Education Program

Who We Are
The Woods Hole Partnership Education Program (PEP) is a ten-week summer research experience designed for college students majoring in the natural sciences (biology, chemistry, physics, or geosciences and earth system sciences) or fishery science, marine or environmental science, engineering or mathematics, economics or environmental policy.

What does our program Offer?
Pep covers all expenses:
✓ Four hours of undergraduate credit
✓ Tuition & fees
✓ Room & board
✓ Travel expenses
✓ Plus a $4,500 stipend

Our interns get the opportunity to:
• take a four-week course (“Ocean and Environmental Sciences: Global Climate Change”)
• take a five day research cruise aboard a tall ship
• conduct six-to-ten week research projects, and
• participate in career-building seminars, networking, mentoring, workshops, and more!

Application requirements
1) Completed application
2) Resume or CV
3) Personal Statement
4) Two Letters of Reference
   *one must be from a faculty member
5) Unofficial Transcript
   *official transcript required if selected
