Subject: CORONAVIRUS (COVID-19) – UPDATE #1

Dear Wesley College Family,

We continue to monitor this very fluid situation and participate in discussions with the Centers for Disease Control and Prevention (CDC), state health agencies, and the other institutions of higher education in and around our region.

Today we will commence regular meetings between our Coronavirus Action Group (CAG) and the Cabinet to review all current recommendations from the CDC, healthcare agencies, and officials in our state. As you may know, hundreds of colleges and universities, including several in our region, have decided to move their instruction online, as well as postponing/canceling athletic events and postponing/canceling commencement. For now, Wesley will continue normal operations and follow our academic and athletic schedules as posted, but the CAG and Cabinet, will review potential contingency plans that may need to be implemented when the situation warrants.

This is not a time for panic or hysteria, but more a time to stay informed, practice good hygiene, and remain aware of your surroundings. I will post updates as new information becomes available, our situation changes, and at least twice a week on Tuesday & Thursday.

We will keep everyone informed of potential actions that may be forthcoming, as well as, continue to provide the safest and educationally conducive campus environment, while at the same time doing our part with our city, county, and state agencies in preventing and/or mitigating the spread of COVID-19 into our region.

All The Best,

Robert E. Clark II
President of the College
