Dear Wesley College Family,

The Coronavirus (COVID-19) continues to be in the national headlines as our network of healthcare systems and professionals tirelessly look for a means to isolate and eradicate this virus. Currently there are no confirmed cases of this virus on our campus, or surrounding community, but we have taken precautionary preventive measures on campus that include increased cleaning and sanitizing of common areas, COVID-19 information dissemination, and formed an action group led by one of our senior Cabinet members. Wesley’s Coronavirus Action Group (CAG) will continue to communicate with the Centers for Disease Control and Prevention (CDC), state health agencies, and the other institutions of higher education, in a joint effort to assure collectively we take all appropriate and necessary precautions to ensure the safety of our campus community – this includes the development of contingency plans to safeguard our campus community, while also exploring a myriad of options for course delivery if there is an incursion of the virus in our state and community.

Our CAG will continue to provide updated information as it becomes available using several delivery means including, campus-wide e-mails, electronic billboard postings, this website, flyers, and social media, so we can hopefully ensure our campus community and greater Wesley College family remains informed. There are several websites and postings dedicated to COVID-19, and the following are a few that may help address some general questions you may have about the virus:

https://dhss.delaware.gov/dhss/dph/index.html

Additionally, here is a short one-minute video from Christiana Care discussing preventive measures:

We will continue to provide the safest and educationally conducive campus environment, while at the same time doing our part with our city, county, and state agencies in preventing and/or mitigating the spread of COVID-19 into our region. One Team…One Family…One Future!

All The Best,

Robert E. Clark II
President of the College
