Subject: CORONAVIRUS (COVID-19) – UPDATE #19

Dear Wesley College Family,

I hope this note finds you and your family safe and well, and you enjoyed responsibly a safe and family filled July 4th Holiday weekend. The nightly news, and local media sources continue to report on the resurgence of the Coronavirus (COVID-19), and the critical levels of new cases being seen in almost all states. This is not a new wave; this is the result of many individuals not following the prescribed protocols of: wearing a face covering, social distancing (maintaining at least 6 feet of separation), avoiding large gatherings, and washing your hands often - supplemented with hand sanitizer usage.

The following is a portion of Update # 6 that was published back on April 7th that is worth reviewing and heeding:

As the doctors and health care professionals search for a medical vaccine, we have in our power a social/behavioral vaccine that can be just as effective in the near term in mitigating the spread of the Coronavirus (COVID-19) - practice social distancing 24/7, wash hands thoroughly & often, and follow local, state, and national guidance. The power to stem the spread, and eventually defeat this virus, resides in the actions of each and every one of us - let’s do our job, do our part, and do what is needed to defeat Coronavirus (COVID-19).

What the next few months look like in terms of potential new restrictions, turning back reopenings, and the health/economic impacts of the Coronavirus (COVID-19) is solely dependent on our actions – we truly control our individual and collective destinies. Let’s all do our job and set the example, both on campus and in our communities. Be a leader….BE A WOLVERINE!

All mandates issued in previous updates remain in effect unless modified in a subsequent update. Please continue to regularly check your Wesley email as well as the College’s website for the most up to date information and guidance on our Coronavirus (COVID-19) page on our website – https://wesley.edu/coronavirus-covid-19-information.

Stay informed, stay healthy, stay positive, and stay safe while helping others that are less fortunate and making a positive impact in the community you live in and serve.

For the thought of the day I will share a quote from American psychologist, Albert Ellis, that is worth reflecting on – "The best years of your life are the ones in which you decide your problems are your own."

All The Best & Go Wolverines!

Robert E. Clark II  
President of the College
