COVID Changes in the Library

Please be aware of the following changes in the library to help keep everyone safe:

- Only half our computers are in use, so **plan ahead** so you’re not trying to print 5 minutes before class!
- Our **study room** can only be used by one person at a time.

- **Wipes are available** by the circulation desk and in the basement. Staff try to wipe common areas as much as possible, but **please help by wiping spaces you’re using!**
- **Wear your mask**, especially when speaking with others or using computers or desks.
- **Our elevator** has a 2 person maximum.

As always, please **ASK** if you’re unsure!

Wesley STEM Students to have COVID/Mental Health Survey Published

Three Wesley STEM students seized an opportunity for research when the COVID-19 pandemic changed campuses all over the country this past spring. Katelynn Fry (Class of ‘20, Environmental Sci), Lyndsey Koyanagi (Sophomore, Bio-Chem), and Andrew Shepherd (Sophomore, Bio-Chem) surveyed Wesley STEM students and faculty regarding virtual learning following the COVID-19 campus closures and how it affected their mental health. Their results will be published this September in an international journal in education.

Their work was mentored by Dr. Malcolm D’Souza and supported by the DE-EPSCoR (WiCCED)* program. Dr. D’Souza’s work was also supported by the DE-INBRE** program.

FROM CIVIL DISOBEDIENCE TO THE BALLOT BOX: THE FIGHT FOR WOMEN’S SUFFRAGE

Dr. Cynthia Newton will discuss the Silent Sentinel protests outside of the White House from 1917-1919 in advance of passage of the 19th amendment to the U.S. Constitution. Little is widely known about the women, their nonviolent protests, and the brutal treatment they experienced just to have a voice in governance. Highlights of Delaware women involved in this fight will be featured.
