Subject: CORONAVIRUS (COVID-19) – UPDATE #28

Dear Wesley College Family,

We continue to provide on campus testing as well as utilizing off campus test sites to ensure all members of our Campus Community have free testing available so we can continue to ensure, as best as possible, a baseline understanding of our Campus Community health as it relates to COVID-19. Testing is not optional, it is required, and along with our culture of compliance as it pertains to the protocols we have implemented to stem the spread of the virus, we have been able to maintain a relatively safe campus environment as reflected in the graphic below.

![Graph showing Total Active COVID-19 Cases & On Campus Quarantine Numbers](image)

Though our numbers have been low and show a downward trend, we cannot get complacent. COVID-19 cases are on the rise nationwide, but the measures we have implemented, and our culture of compliance are making a difference. I know that these challenging times have been difficult on many of us and have required many sacrifices...
and deviations from what we would have considered the norm, but they are necessary and critical in defeating the COVID-19 Pandemic.

In addition to the on campus testing we have provided, next Wednesday, October 28th, DEMA & MakoMedical will be on campus providing testing for faculty, staff, and students (with scheduling conflicts that preclude testing on the 29th), and on Thursday, October 29th, TFA is sponsoring CONCENTRIC to provide testing to all students—specific times, location, and sign-up instructions will be provided by our COVID-19 Action Group (CAG).

**Everyone is reminded to regularly check your Wesley email as well as our Protect Wesley webpage** for the most up to date information and guidance - [https://protect.wesley.edu/](https://protect.wesley.edu/). Additionally, there is a “FAQs” site imbedded under the Protect Wesley Pledge section of our Protect Wesley webpage ([https://protect.wesley.edu/faqs/](https://protect.wesley.edu/faqs/)), as well as other areas, that provides several commonly asked questions/answers.

**Campus remains closed to the public unless it is a specific and College authorized event or visit.**

Stay informed, stay healthy, stay positive, and stay safe while helping others that are less fortunate, as well as making a positive impact in the community you live in and serve.

For the thought of the day I will share a quote from George Washington, that is worth reflecting on – *"It is better to offer no excuse than a bad one."*

Next Update: Update #29, November 5th.

All The Best & Go Wolverines!
