

Mandatory Title IX Training **Fall 2020 Semester**

As a student, you are *required* by federal law to receive Title IX training each new academic year. If you complete this training before the **September 18, 2020 deadline**, you're all set!

If you *do not* complete the mandatory Title IX training by the deadline, a **HOLD** will be placed on your account. This **HOLD** will prohibit you from seeing your grades and registering for classes.

How do you get the hold removed?

You should have received several emails with instructions on how to take the Title IX training. If you did not, or if you have deleted them, you can complete the training by following these steps:

1. Go to <http://lms.traliant.com/login>
 - a. You will need a headset or speaker to complete the course.
 - b. You will need to complete the course on a laptop or desktop
 - c. You must use one of the following internet browsers: Internet Explorer with flash, Google Chrome, Firefox, and Safari (on a Mac)
2. **Username: enter your Wesley email address**
3. **Password: enter 'Password@123' (just as it says)**
4. **Click "Play" on the screen**
5. Complete the Course.

Once you have completed the course, email title-ix@wesley.edu stating that you have completed the course. They will ensure the HOLD is removed from your account within the next business day.

You can't log in?

Email title-ix@wesley.edu explaining your issue. They will work to fix the problem as soon as possible to give you access to the course.

If something is not working, it is your responsibility to bring it to our attention.

If you have any questions that are not answered here, please reach out the Title IX team at the email address listed above and they will be happy to assist you.
