Dear Wesley College Family,

Having completed our second round of on campus testing our numbers remain low, below a 0.2% infection rate, as illustrated in the graphic below.

Although our numbers have been low and show a downward trend, we cannot get complacent. COVID-19 cases continue to rise nationwide, but the measures we have implemented, and our culture of compliance are making a difference. I know that these challenging times have been difficult on many of us and have required many sacrifices and deviations from what we would have considered the norm, but they are necessary and critical in defeating the COVID-19 Pandemic.

We will continue to provide on campus testing as well as utilizing off campus test sites to ensure all members of our Campus Community have free testing available so we can continue to ensure, as best as possible, a baseline understanding of our Campus Community health as it relates to COVID-19. **Testing is not optional, it is required, and administrative actions will be taken against those that fail to comply.**
The following is a list of upcoming dates for the MAKO/DEMA sponsored nasal swab testing, which will be administered in the College Center atrium from 11:00 am – 4:00 pm on the dates listed below:

- November 17th
- January 12th
- January 26th
- February 9th
- February 23rd
- March 9th
- March 23rd

Refer to the November 4th e-mail from Dr. Anderson for specific registration and documentation requirements for the MAKO/DEMA sponsored testing.

As we get close to the end of the Fall semester, all in-residence students are to check your e-mails for Residence Life guidance for checking-out over the Holiday/Winter break, as well as check-in procedures for the Spring semester. Additionally, you will be provided with a check-out/check-in form that you will have to complete and sign before being released for break.

**Campus remains closed to the public unless it is a specific and College authorized event or visit.**

Stay informed, stay healthy, stay positive, and stay safe while helping others that are less fortunate, as well as making a positive impact in the community you live in and serve.

For the thought of the day I will share a quote from Nobel Peace Prize laureate, Aung San Suu Kyi, that is worth reflecting on – “If you’re feeling helpless, help someone.”

Next Update: Update #30, November 19th

All The Best & Go Wolverines!
