June 2, 2021

Dear Wesley College Family,

Thank you for your steadfast support of our students, our College, and our future. Your support and engagement has been, and will continue to be, an integral part of Wesley College’s life-changing educational opportunities afforded our students.

On Saturday, May 15, 2021, we celebrated the Class of 2021, and members of the Class of 2020 who returned home to participate in our Commencement ceremony. Though the Class of 2021 will be the last class to receive a Wesley College Diploma, they are not the only class to receive the “last diploma” from this institution, as it has evolved over the years with several functional, as well as name changes. Though the name and educational focus areas of this institution have changed over time, the life-changing educational opportunities provided to so many have remained the bedrock of what has made, and will continue to make, Wilmington Academy, Wesley Junior College, Wesley College, and soon, Delaware State University’s, Wesley College of Health & Behavioral Sciences, a special place, and their alums leaders of positive change in the communities that they live in and serve – just like each and every one of you.

Delaware State University is not only committed to maintaining our Wesley College legacy, and what it has meant to all of us, they are also committed to ensuring your life-changing gifts remain earmarked for those who will be part of the Wesley College of Health & Behavioral Sciences, or however you choose to earmark your generous contributions. Attached is a letter from Dr. Tony Allen, President of Delaware State University, expressing their commitment. Additionally, they have offered a position to our own Director of Development and Alumni Relations, Laura Mayse ’92, who will be the Wolverine in the Hornets’ Nest, that will be engaged to ensure our legacy is properly memorialized.

Though our institution’s name will once again take on new meaning, our legacy will never die thanks to your continued engagement and support. Wesley College will not only live on as the Wesley College of Health & Behavioral Sciences, but also in our memories, friendships, and lives impacted in the communities that our Wesley College Family, like yourselves serve.

All The Best & Always Wolverine Strong!

Robert E. Clark II
President of the College
